Wanted No Picture House Although Funds Are Reported Erected at Twenty-Fifth Street and Jefferson Avenue.

Efforts made by certain moving picture theatre promoters to invade residential districts met with a set-back at the hands of the Council Committee on Ordinances yesterday afternoon, an ordinance being recommended for adoption providing a segregated or re-stricted area in which all theatres and amusement resorts must be located. The committee was called to consider The committee was called to consider an ordinance introduced at the last meeting of the Common Council by Morgan R. Mills. A year or two ago an ordinance was adopted prohibiting the licensing of any theatre within 150 feet of the front entrance of any church, or which will be 50 feet in an air line from any portion of a church building, that law having been designed to prevent the erection of a theatre at Eighth and Grace Streets, objected to by several churches. The Mills ordinance exempted from the provisions of this ordinance small amusement resorts, showing moving pictures only, and having no theatrical or vauonly, and having no theatrical or vau-deville productions.

Offered by Request.

Captain Mills appeared before the committee yesterday afternoon and explained that he had offered the ordinance by request, and after studying it and consulting his constituency, found that he himself was not prepared to support it and he hed these pared to support it, and he had there-fore asked the City Attorney to draw a substitute, providing an area in which theatres may be licensed. It was theatres may be licensed. It was brought out in the debate that the original ordinance was designed to permit the location of a moving picture theatre at, Twenty-fifth Street and Jefferson Avenue, proposed to be erected by M. L. Hofheimer, and to which there The lines proposed in the substitute were altered by various amendments, and as recommended for adoption the ordinance leaves the provision as to distance from churches the same as
